

Product name Ova View High Intensity

Egg Candling Lamp

Manufacturer BRINSEA PRODUCT LTD

Brand BRINSEA

Origin MADE IN BRITAIN

Ova View High Intensity Egg Candling Lamp

Description

The OvaView High Intensity is similar to the OvaView but with a much higher light output from a higher spec LED. The greater power makes inspection of darker and mottled egg shells easier. Supplied with both the normal flexible black ring to seal against the egg shell plus a smaller version for smaller eggs.

The larger power drain means that rechargeable AA batteries are required, these may be purchased from many electrical and retail outlets.

Protected by Biomaster antimicrobial additive: proven to reduce bacterial growth by up to 99.99% and 100% safe for eggs, chicks and humans. Protects the incubator from microbial growth by reducing the risk of cross contamination and provides a more hygienic environment for your eggs.

Product code: F190
