

[Camera Type] Curadle Smart incubator PRO PLUS 160C Product name

Manufacturer AUTOELEX

Brand **CURADLE** 

Model PX-ICU160C [Camera Type]

Origin MADE IN KOREA

## The No.1 Choice for veterinary care and animal recovery

MADE IN KOREA 😍

## Reflects veterinarian's opinions taken at the product concept

Curadle Smart Pet Incubator ICU has been exported to more than 10 countries around the world including medical advanced countries like the USA, UK, Austria, Japan, etc., it is entirely different from other ICU-copied cages.

# Automatic control and settings for temperature, humidity / Floor cooling system

(Independent humidity system, which is easy to use and manage)

The separation of floor and air temperature, excellent insulation and double structure, makes the internal temperature very precise. The floor cooling function provides animal patients with cool temperature without the need for extra airflow.

\* The oxygen tank and oxygen generator picture are for illustration purposes only and are not included with this product.

## Control and setting of oxygen, carbon dioxide concentration

High pressure oxygen chamber makes safe and effective pressurization possible with automatic ventilation system. (Controls up to 40% of oxygen concentration)

Artificial intelligence electronic controller smartly controls the internal environment.

### Hand access for simple treatment

Hand access is to enable the pet treatment inside without opening the whole window. By turning the hand access, it is partially opened, and it can then be used as a vent.

### Stand pole and power external devices

Stand pole to easily install peripheral devices, with built-in outlet to power external devices.

Optional: you can install additional peripheral devices with EX-POLE.

## Tempered glass view-window and one-touch door lock

The tempered glass view-window helps to check the condition of the animals patient easily and the door lock is secured which cannot be opened by the pet from inside.

## Stainless steel chamber and waste tray

Stainless chamber to enhance durability and urine tray designed to gather in one place helps sanitation management conveniently.

### Clean Air-filter

Built-in filter out dust and impurities. It can be used several times with dense filter material and it easy to clean water.

## Internal light, IR, UV-C Lamp

Built-in are 3 different kinds of lamps, the LED lamp is to brighten inside, an infrared heating lamp and also the UV-C lamp to disinfect.

Quick button on the home screen for easy control of the three kinds of lamp.

## Large LCD screen, with quick buttons and multi language options

Touch screen for easy-to-use menu options provides optimal environment setting according to the health condition of animal patient.

\* 9 languages supported (English, German, Spanish, Portuguese, Russian, Korean, Chinese, Japanese, Arabic)

### Treatment time settings and alarm function

Timer function allows you to set alarms such as treatment time and medication time. Also in case of device abnormality, (high temperature, high concentration of CO²) it sounds an alarm to inform you of the status.

\* Illustration picture is just to help understand, Curadle Pet Brooder does not able to set timer or alarm.

### **IP** camera

Built-in IP camera to check real-time inside video on mobile.

\* WiFi connection equired.

## **How to place CURADLE**

Installation applicable together with Curadle Pet Brooder.

#### Specifications by Model

<sup>\*</sup> To improve the performance of the product, specifications are subject to change without prior notice.

#### Inner size reference guide

\* There may be differences depending on the animal species and size.

#### To place alone

#### To place for 1 stack

<sup>\*</sup> When the height of the installation space is not enough, the height of the cabinet has to be adjusted, there must be at least 150mm of space from the top of the ICU machine to the ceiling.

#### To place for double stack

\* When the height of the installation space is not enough, the height of the cabinet has to be adjusted, there must be at least 150mm of space from the top of the ICU machine to the ceiling.

## How to connect with oxygen tank Oxygen tanks must be equipped with a regulator in the front.

#### **SPECIFICATION**

**CURADLE SMART INCUBATOR PRO+ 160** 

\* For oxygen tank Model NO. : PX-ICU160+(T) \* For oxygen generator : PX-ICU160+(G)

\* For oxygen tank / IP camera included : PX-ICU160C(T) \* For oxygen generator / IP camera included : PX-ICU160C(G)

Temp. Control MAX. 50°C / 122°F

Optimun range 20 ~ 25℃ / 68 ~ 77°F External environment temp.

Humi. Control MAX. 70% External environment humi. MAX. 60% Oxygen concentration control MAX. 40% Carbon dioxide concentration control MAX. 4000ppm Display LCD (Touch screen)

Power AC 100-120V, 50/60Hz / AC 220-240V, 50/60Hz

Power consumption

Size External : (W)916  $\times$  (L)532  $\times$  (H)768mm

Internal(Capacity): (W)692 x (L)470 x (H)494mm / Capacity 160L

Weight 57kg(N.W.) / 63kg(G.W)

#### **BASIC PRODUCT INFORMATION**

Manufacturer AUTOELEX CO., LTD.

Country of manufacture KOREA

#### \* Paid repair

- Failure of function, performance by consumer's intention, mistake
- If a malfunction occurs due to natural disasters (fire, salt, gas, earthquake, flood, etc.) If replacing consumable parts that are normally worn in use
- If a fault occurs due to abnormal power supply or defective connection equipment
   If a failure occurs due to repair or alteration made by a person other than the repair agent of the head office or agency
- Other external causes not the fault of the product itself
- If a fault occurs due to different rated voltage
- If failure occurs due to use of unspecified consumables or optional parts not specified by our company
- In case of failure or damage due to dropping when moving etc
- Failure caused by non-cleaning
- If the malfunction / consumer error caused by wrong operation of the machine
- Failure during use in a manner not described in the manual
- \* The manufacturer or distributor is not responsible for any life loss or property damage caused by user's carelessness, alteration, change of purpose, power failure, natural disaster, etc. To avoid errors, please read the user's manual carefully before use.
